

## Winter Challenge 2024

The new challenge is to create a painting in whatever medium; representative, or abstracted and repeat it as a different season.

For example:

Winter to Summer / Spring to autumn/

Any combination or all four seasons in one, as in the example below.

Or one painting showing two seasons.

Or two paintings for two seasons - Monet's haystacks.

The paintings, of course, do not need to be landscape. They could even be portraits for example.

Seasons could also be interpreted as:

Young person - Spring; Old person - Winter.
